

**German  
Publisher  
Releases New  
Works by  
Andreas Feil**

The latest addition to the PGM Art World of Germany catalog of artists is Andreas Feil. Four images of modern-style photography are published as oversized prints in 138 cm x 95 cm

Feil alienates pictures taken from mass media, subversively undermining photography's traditional claim to legible documentation. He opens to the onlooker a new, undistorted view devoid of excessive information flows or hidden sales messages.
